

Lab Animal Health Diagnostics

Monitoring Antibodies to Common Lab Animal Pathogens

Multiplex & Single Agent ELISA Kits

- Up to six different pathogens per well
- Customized to meet specific testing needs
- Significant reduction in labor and turnaround time
- 5µl sample per assay

Easy to Use

- 96 well ELISA plates
- One protocol for all assays
- Ambient shipping, Storage at 2-8°C
- Compatible with plate washers, readers & automated plate processors
- Ready-to-use ELISA plates, controls, diluent, conjugate and substrate

Reliable

- Highly reproducible results: CVs < 5%
- Low levels of antibody detected for early identification of infection
- Consistent performance in stability testing at 4°C and 37°C

Cost-Effective

- 18 month shelf life
- 2 and ½ hour turnaround time
- Unused strips can be removed and used later
- Components available separately and in bulk
- Shipping at ambient temperature (no dry ice)

Other Assays

- PCR Controls and Assays
- Helicobacter PCR genus & 6 species
- Mouse Immunoglobulins ELISA Kits
- Rat Immunoglobulins ELISA Kits
- Mouse and Rabbit Vaccine ELISA Kits
- HIV p24 ELISA Kits
